Dear friend

How's life treating you? I hope very well because I do not.

I will tell you, last week I was walking my dog in the park and we has a lot of fun until we were on our way home some dogs attacked us, that happened so fast that I didn't even react and they hurt my dog very badly when I could, I carried him and when I was running home I was talking on the phone to his veterinarian about him. Coming home, my mom and me immediately took him to the vet, that was horrible I've had a hard time, he requires a lot of care and for me it's difficult but the important thing is that he's getting better.

Also, I want to tell you that university is really hard as you told me and it's more complicated now with online classes but I'm learning to cope with all this and much more that I want to tell you about that's why we have to see each other. Would you like to come to my house for the weekend? I'd love for you to come so you can also tell me about that guy you met. I looking forward to see you.

With love

Estefania
